

# MULTI-FUNCTION MOSQUITO LAMP

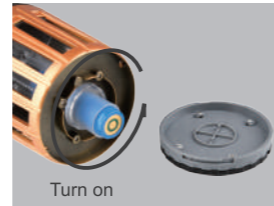

## WORKING PRINCIPLE

The mosquito killing lamp is a camping mosquito killing lamp which uses high-power LED as the light source and takes into account the functions of ultraviolet mosquito traps and power grid mosquito killing functions. When used, it can be put flat and suspended to adapt to more application scenarios. The standard Micro USB interface is adopted to charge the internal charge. There are two separate light touch switches to control the lighting mode and the mosquito control mode respectively. The model is exquisite and fashion, the whole has the waterproof grade IPX6, and the whole water washing is realized. It is convenient to clean the mosquito and be easy to operate. It is an ideal indoor and outdoor multifunctional innovative product of environmental protection, economy, energy saving and safety.

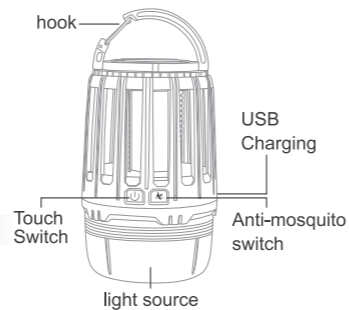

The working principle of the mosquito control lamp is to use the mosquitoes to attract the mosquitoes, to attract the mosquitoes to death, to induce the mosquito to kill the mosquito, to seduce the mosquito tube with high efficiency and to induce the mosquito to kill the insect by the electrostatic shock. Physical safety mosquito control, no chemical, harmless, non-toxic.

## FUNCTIONAL FEATURES OF PRODUCTS

- High efficiency mosquito control
  - To lure mosquitoes and to kill mosquitoes in the power grid.
  - In the limited space, effective prevention of mosquito invasion.
  - Special effects lighting technology to protect mosquitoes, LED purple light wave technology, select 395-400nm mosquito trap wavelength.
  - Light and soft, low consumption lighting, decoration and luster, can make indoor night activities special and convenient.
- Many kinds of safety protection
  - Anti lightning technique.
  - No plug in: 5V low voltage USB rechargeable, effectively avoid 220V plug in power supply security risks.
  - Silicone lampshade protects the product from damage when it falls.
  - Humanization design mosquito net safety net, safe mosquito control, avoid body limbs unintentional touch.
  - Physical safety mosquito control, no chemical, harmless, non-toxic, reduce two times of pollution or injury.
- All water washing IPX6
  - Full wash is easy to remove the corpse of the mosquito.
- A wide range of application scenarios
  - It is suitable for bedroom, living room, restaurant, toilet, office, duty room, medical clinic, ant account, dormitory, yard and outdoor camping.
- One machine multipurpose
  - 3 highlight COB, three block lighting mode, perfect combination of high efficiency electronic mosquito killer.
  - Advanced circuit design, beautiful appearance, small and exquisite, no pollution, safe and reliable, long service life, low power consumption, low power consumption, high efficiency.

1200mAh 18650 battery

# MULTI-FUNCTION MOSQUITO LAMP

## FUNCTIONAL FEATURES OF PRODUCTS

Product grade	Qualified product
Main material	ABS
Full power kill mosquito time	≥15H
Power grid voltage	≈600V(Note: do not be curious about touch)
Ultraviolet LED wavelength of mosquitoes	0.06W/f5mm/395-400nm
Maximum luminous flux / lighting time	150-80Lm/10-12H
Lighting LED power / color temperature	COB/SMD(6000-6500K)
Built-in battery specification / full time	1200mAh/3.7V/4-6H

## MATTERS NEEDING ATTENTION

- drive with curiosity. Do not extend your hand into the machine to avoid damage to the machine or accident.
- when cleaning up mosquitoes, it is recommended to turn off the power of mosquito killing lights.
- in the environment of children, the mosquito killing lamp must be placed in places where the child can not reach it.
- the mosquito killing lamp should be placed in the dark corner where mosquitoes fly most easily. The lower end should be about 80-120 cm away from the ground and close other light sources.
- avoid direct exposure to doors, windows and beds to prevent attracting mosquitoes and flies.
- find quality problems, please contact with suppliers or manufacturers, do not dismantle repair.

## PRODUCT WARRANTY CARD

Product Name: \_\_\_\_\_

Product Model: \_\_\_\_\_

Date Of Purchase: \_\_\_\_\_

Customer Name: \_\_\_\_\_

Contact Number: \_\_\_\_\_

Customer Address: \_\_\_\_\_

The contents of this article are agreed on the matters of free repair:

- The warranty period of this product is 1 years
- During the warranty period, the failure occurred in the normal use of the instructions according to the instruction manual (determined by the company's quality control staff), and it will be repaired free of charge.
- During the warranty period, one of the following circumstances must be repaired as a charge:
  - Failure to provide this guarantee and valid purchase voucher.
  - Failure or damage caused by incorrect use or improper behavior.
- To keep this card properly, we will keep it as a basis.
